OBJECTIVE

- Self-independent, reliable and friendly individual who works hard to achieve his goals.
- Adaptable quickly, and organized well. Interested in learning the latest web & software technologies quickly
- Able to work well in teams as well as individually. My future goal is to become a senior full-stack developer.

EXPERIENCE

- Cambridge Computer Academy**
Software engineer (intern) July 2023. - PRESENT
- Learning new technologies and programming languages as needed.
 - Participating in the planning and design meetings to contribute to the development process of web applications.
 - Providing learning support to students of the ongoing software engineering cohort.
- SQI College of ICT** SEP 2020 - NOV 2021
Front end engineer (intern)
- Participated in the planning and design meetings to contribute to the development process of web applications.
 - Analysed UI/UX designs, turned design pages and specific components into HTML, CSS and Java Script.

PROJECT

- Software Project (2022) - Netflix Clone**
Link: <https://show-movies-with-netflix.vercel.app>
- I created a fully functional Netflix clone website which involve designing and user-friendly interface the emulates the popular streaming platform with HTML, CSS and JavaScript.
 - A Netflix clone where you can log in to view the other page with your own email to access the current movies that was fetched from a free movie API and work perfectly,
 - Click on the Movie box to display a modal and watch the thriller of the selected movie.

- Software Project (2023) – Portfolio Website**
Link: <https://portfolio-website-cyan-rho.vercel.app/>
- I have developed a comprehensive portfolio website to showcase my growth, skills and past projects.
 - This website contain all of my projects from HTML to React.js and I have different works displayed with their Images and links to view the original version.
 - I created a Hotel-resort clone with react.js and also my portfolio website was for the view of all works for easy access

Other Project
E-commerce Website (<https://online-shopping-cart-sepia.vercel.app>)

EDUCATION

Federal University of Agriculture, Nigeria.
Business Agric JAN 2014 - My 2019
An Experimental Research on oxidative stress biomarker on West African dwarf goats using vitamin E & Selenium
